

Whether you're teaching your kids to count change or planning your retirement, it's great to have help along the way!

That's why Diamond Lakes offers FREE financial education programs, covering topics for everyone at every level and stage of life.

Plus, we can tailor the content to fit the needs of your club, school, church, business, non-profit, group or organization.

Why do we offer free financial education programs?

It's an important part of Diamond Lakes' commitment to improve the lives of the people and communities we serve.

In fact, our workshops and Reality Fairs have already helped thousands of people.

Take a look at the list and call us to set up your session!

Free Financial Education & Counseling Programs

Federally Insured by NCUA

● People ♥ Passion ◆ Purpose

REALITY FAIRS

Financial Reality Fairs take the subject of budgeting and makes it fun and interactive. The Reality Fair empowers the participants with the tools, information, and decision-making skills necessary to achieve financial freedom. We offer a budget simulation Reality Fair in three formats: virtually through Zoom or GoToMeeting link, in a classroom where we do an on-site visit and as a large event taking place in a gym or other gathering space.

CAREER FAIR FOR STUDENTS Through Project HOPE

Through our partnership with Project Hope, a non-profit organization, we organize career fairs to help prepare students for the future. We invite local companies (manufacturing, electrical, plumbing, welding, hospitals, retail, restaurants, etc.) to come together in a large setting where students can interact and ask questions.

FINANCIAL EDUCATION CLASSES

These classes are like Lunch and Learns but can be done virtually or in person on topics such as: elder abuse, budgeting, building credit, and opening and maintaining accounts.

FIRST TIME HOME BUYER EDUCATION COURSE

A short, on line course to help educate on the home buying process.

CLASSROOM VISITS

In our classroom visits we talk to students about the importance of a checking and savings account and how to manage those accounts. Explaining how to achieve and maintain good credit and why that is important.

INDIVIDUAL FINANCIAL COUNSELING By one of Diamond Lakes' Certified Credit Union Financial Counselors (CCUFC)

This is a one-on-one meeting and can be one time or on a regular basis with one person, a couple, or a family. These sessions are to look at each financial situation, work up a budget to help get the members back on track financially.

LUNCH AND LEARN FOR COMPANIES OR NON-PROFITS

We have a variety of topics that can be modified to a 15-, 20- or 30-minute Lunch and Learn or an hour-long workshop or seminar. We are happy to make the topic of your choice meet the time frame that fits your needs. We will also bring the workshop to the location most convenient for you with lots of flexibility on the time of day.

PRIME CAPITAL INVESTMENT ADVISORS

An investment advisor will come to one of our Diamond Lakes branches to meet with members on their individual needs such as helping to navigate retirement, signing up for Medicare or Social Security benefits, investment management, estate planning, etc.
